ABOUT US

Established in the year 2013 at Coimbatore, Tamil Nadu, We “**Rajalakshmi Enterprises**” are a Sole Proprietorship firm, engaged as the foremost Wholesale Trader and Manufacturer of Floor Cleaner, Liquid Hand Wash and many more. Our products are high in demand due to their premium quality and affordable prices. Furthermore, we ensure to timely deliver these products to our clients, through this we have gained a huge clients base in the market.

High-end cleaning agents are not only used in public places such as restaurants, shopping malls or hotels, but also in various houses and apartments. The first advantage of renowned cleaning products is certainly its long-lasting effect. It makes the cleaning itself shorter and allows to repeat it at a lower frequency. High-end cleaning products are also much more efficient, so products such as dishwashing liquid, washing gel or air freshener from a Rajalakshmi Enterprises will last longer than low-quality products.

It is also worth taking into account the safety of using this type of detergents – their composition and mode of operation are adjusted to the strictest standards, determined, among others, by the Sanitary-Epidemiological Station and other certification bodies. This is especially important in the case of household members with a tendency to be allergic to particular chemicals. The “top shelf” products are also preparations made in an environmentally friendly way from biodegradable materials.

Many of them have a completely vegan formula, which is not without significance for an increasing number of customers. As far as cleaning products are concerned, the manufacturer should also ensure that they effectively neutralize all kinds of microorganisms, such as dangerous bacteria and fungi. All this makes customers who once apply high quality cleaning products usually can no longer imagine returning to normal preparations.
